

MEZZO

DIRECT VENT GAS FIREPLACE

MODERN DESIGN REDEFINED

You've never experienced modern design like this... clean, discreet, luxurious.

MEZZO

DIRECT VENT GAS FIREPLACE

The new Mezzo from Heat & Glo boasts clean, modern lines. No gaps - clean finish... and quality. Every corner, every edge and every element of the Mezzo is all about perfection.

Flames, lights, reflections and warmth combine to stimulate the senses. Flames spread across an illuminated bed of crushed glass... and the black glass interior adds depth and intensity to the fire.

HEAT & GLO

FEATURES:

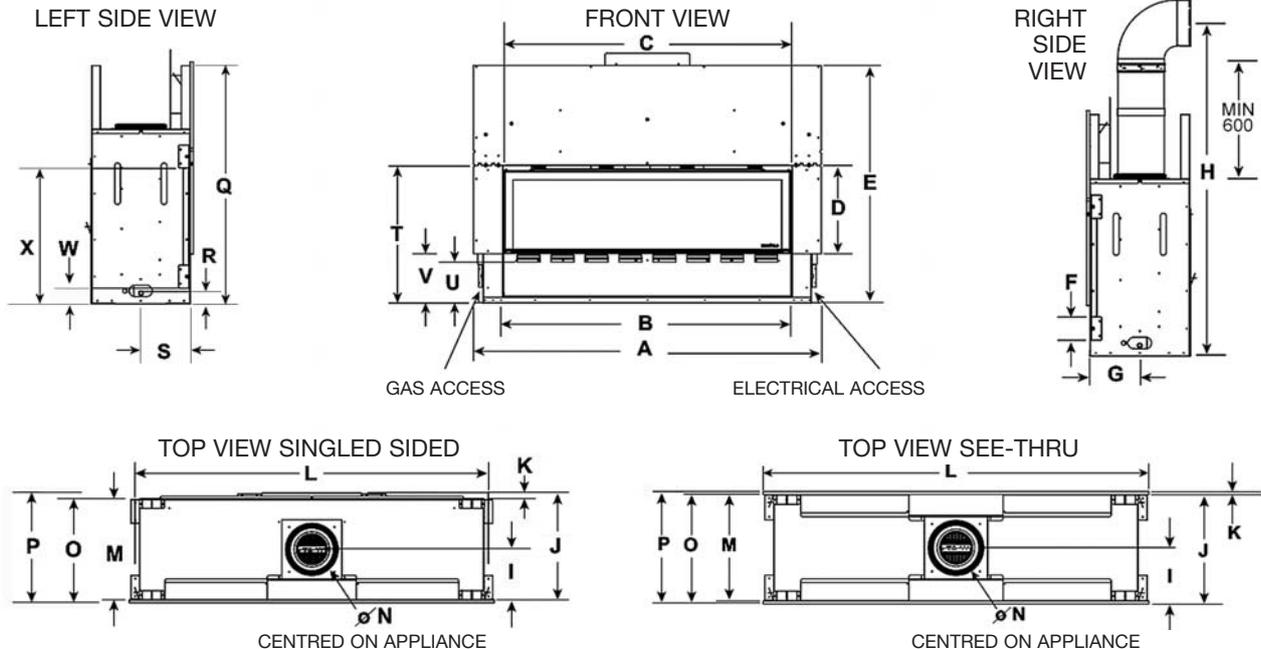

- Distinctive modern design with minimalist Clean Face surround
- High gloss black glass internal surfaces
- Crushed glass media with either log or pebble options
- Direct Vent Technology which removes 100% of combustion exhaust and odour - maintaining clean, safe indoor air quality
- Clear LED Lighting technology for a high contrast, brilliant lighting effect to accentuate the flames
- INTELLIFIRE PLUS Ignition System, Heat & Glo's advanced intermittent pilot system for optimal heat and energy efficiency

AUSTRALIAN MODELS: • 1000 Single Sided • 1300 Single and See-Thru • 1600 Single Sided

Dimensions above are in millimetres and for reference only. We recommend measuring individual units at installation. Refer to installation manual for detailed specification on installing this product. Heat & Glo reserves the right to update units periodically. The flame appearance may vary based on the type of fuel burned and the venting configuration used. Photos in this brochure may vary in colour and dimension (size) from the actual product.

IntelliFire Plus™ Ignition System

The IntelliFire Plus™ Ignition System is an "intelligent" control system providing energy conservation and the comfort of a roaring fire, all at your fingertips! IntelliFire Plus™ eliminates the need for a continuously burning pilot light, reducing gas consumption and lowering operating costs.

IntelliFire Plus™ RC300

Our new IntelliFire Plus™ remote control provides stylish and fully featured benefits that make controlling your heat easier than ever. Incorporates an LCD screen, intuitive menus and large control buttons in a sleek and modern design. This wireless control gives you the flexibility to use as a remote only or a mount on the wall anywhere in the room.

Balanced Flue Gas Fireplace

The Heat & Glo balanced flue gas fireplace is a completely sealed system, drawing 100% of combustion air from outdoors and exhausting all combustion byproducts back outside, whilst maintaining optimum indoor air quality. Cold air drafts are eliminated and heat output is maximised. With the option of venting either from the top or rear (Heat & Glo's TR technology), even greater placement flexibility is possible, and the variable valve allows you to adjust the flame height and heat output.

NOW AVAILABLE with the iGloo App for total control!

Now you can control your Heat & Glo balanced flue gas fireplace from your smart device with the innovative iGloo App. Download now from the App Store or Windows Store.

CUTTING EDGE TECHNOLOGY, CONTROL & PERFORMANCE!
