

Established in 1980, the Nectre brand has long been recognised as a honest and reliable wood heater that produces stunning warmth and comfort from a timeless design with easy to operate features. Today, that Nectre warmth and comfort is enjoyed in well over 15 countries.

We are proud of our tradition, history and even more so to be one of the leading Australian wood heater manufacturers. We strive to make the very best heater for value while providing excellent all-round performance. We are driven daily to achieve manufacturing excellence and as such every Nectre wood heater meets or exceeds AS/NZS 4012:2014 and AS/NZS 4013:2014 standards.

4 designed air-holes cast into the Nectre door that make it easy to light a fire for the first time or reigniting a fire that is still warm. The following Nectre heaters have this design - Mk1, Mk2, Mk3 MEGA, Big Bakers Oven and the Inbuilt. When lighting a fire the top air slide and the Easystart Air Control should be fully open. Once the fire is established, it is recommended to close the Easystart Air Control.

 $[\]ensuremath{^{\star}}\xspace \ensuremath{\text{Dependent}}$ on how far the base of the firebox is from the floor

For the very best performance out of a Nectre wood heater, we recommend only burning dry seasoned hardwood. Pre-season maintenance check and a possible flue clean will ensure excellent Nectre performance. Avoid using salt borne drift wood, pine and/or chemically treated woods. Up to 10 hour burn time can be achieved with all Nectre wood heaters (excluding N900 models).

NOTE: Nectre Bakers Oven & Big Bakers Oven emissions and efficiency are shown as n/a, they are classified as a cooking stove and are exempt. All measurements are in millimeters (mm) and are correct at time of print. Glen Dimplex Australia Pty Ltd reserves the right to change or alter product specifications as required.

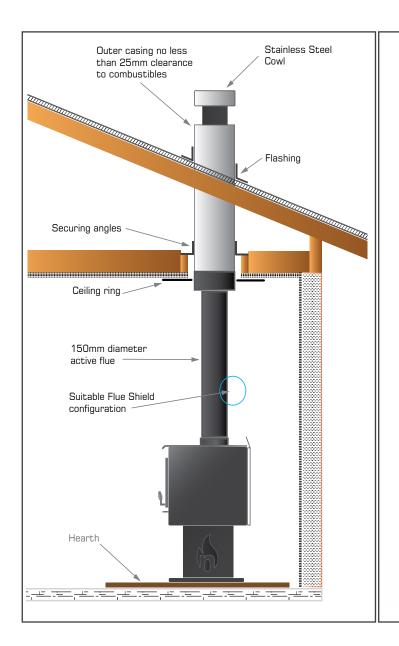

^{**}Dependent on material used

^{***}May be reduced to 300mm if firebox is raised 450 above the floor, equivalent to woodstacker base cabinet

FLUE REQUIREMENT

The flue system used when installing a Nectre must comply with the current installation standards of AS/NZS2918. Full instructions on the installation of the flue will be supplied with the flue kit and these must be adhered to. The minimum exit height from the top of the floor protector (hearth) must not be less than 4.6mt and the minimum exit height above the roof line of the roof ridge as detailed in the instructions.

Suitable Flue Shield Configuration

REAR

REAR SHIELD

Models suitable for N15 | Mk1 | Mk2 | Mk3 | Mega N60 | Bakers Oven's

DECROMESH

Decromesh extending from heater to dropbox with 900mm inner reflector.

Models suitable for N15 | Mk1 | Mk2 | Mk3 | Mega N60

SOLID

200mm Solid flue outer with DLR and 900mm x 130mm shield

Model suitable for Mk3 | N15

Decromesh Locating Ring (DLR) is supplied standard with Mk3. Can also be purchased as a option if required for other models.

It is recommended that a qualified person/s carry out the installations in accordance to all specifications contained within this document, and with all relevant building codes. Glen Dimplex Australia Pty Ltd reserves the right to change or alter drawings, specifications or dimensions without prior notice. The information contained within the document was correct at time of printing.

4.6m Flue from the hearth plus the minimum above the roof line of the roof ridge.

GAS LOG

High Consumption = 28mj/h (NG)
Low Consumption = 20mj/h (NG)
Output = 5.1 kilowatts (kw)

Styled by tradition, the Nectre Gas Log Fire provides constant convection warmth and comfort from natural gas. Easy to use features and control makes the Nectre Gas Log Fire a welcome addition to any living space.

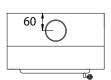

<u>Clea</u>rances

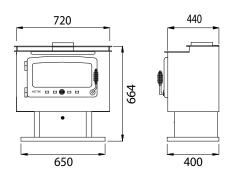

Dimensions

Parallel Installation R S

Can be placed directly on a combustible floor with no hearth.

Features

- Cast iron door with ceramic glass
- 3.0/4.0 steel construction
- Electronic ignition
- 2 Speed fan
- Double glazed door
- Finished in black metallic paint
- Weight: 95kgLog Kit: 3
- Spigot size : 95 O/D

Available models

Natural Gas

All dimensions are in millimeters (mm) unless specified otherwise. In the interest of product development, Glen Dimplex Australia Pty Ltd reserve the right to change Gas Log Fire product specifications without prior notice.
