# GREENFIRE™ GAS FIREPLACES

# Why Choose Regency?

An exceptional fire, custom elegance and controllable heat are just a few reasons to make a Regency fire part of your family.

In 1979, I founded Regency Fireplace Products with a mission to produce the finest fireplace products available anywhere. As a result, Regency has been honoured with awards for exceptional aesthetics and performance and is known as the premium brand around the world. We have been dedicated to providing Australia & New Zealand with Regency fires for over 20 years: committed to creating products that promote comfort and peace of mind.

I am so confident in the quality workmanship, the finest materials and durable heavy-duty construction invested in each and every product, that I offer a Limited Lifetime Warranty. Invite the comfort, efficiency and style of a Regency gas or wood fire into your home and enjoy quality time for a lifetime - I guarantee it.

## Why Choose A Direct Vent Fireplace?

A Regency direct vent gas fireplace is the perfect heating solution for your renovation or new construction project. In just three easy steps, you can have a Regency Gas Fire almost anywhere in your home - no chimney needed! Select a fireplace, choose a fascia, and have it vented through an outside wall. Enjoy watching the lively, realistic fire of your new Regency while it warms your home and your soul.

## Extra Large Gas Fireplace

The Regency Greenfire provides an immense linear view of the best in class flame and log package that Regency currently offers. Perfect for contemporary spaces and open concept living areas, heat is distributed throughout the home with maximum efficiency. The black enamel reflective panels further accentuate the fire – drawing friends and family closer to stay a while longer.

### STANDARD FEATURES

- Wide landscape fire with driftwood log set
- Realistic ceramic glowing ember bed
- Black enamel reflective side panels
- 3-speed fan
- Electronic ignition
- RF Remote control
- Room sealed direct vent

### OPTIONS

- Contemporary door frame & fascia in black or brushed stainless steel
- Premium glass fascia in black
- Clean edge finish option (no fascia required)
- Optional trim kit for clean edge finish
- Black or stainless steel inner door frame to mix and match
- Optional framing kit
- LPG/ULPG conversion kits
- Horizontal or vertical flue options
- AstroCap™ Venting System for horizontal termination
- Heat distribution kit & air duct to distribute heat to other rooms

\*when installed with a short horizontal flue kit on NG

F	1119	1108
G	83	83

## REMOTE CONTROLS

RF (Radio Frequency) Remote Control is programmable up to 7 days a week. The remote can be operated from another room, automatically modulating the temperature of your Gas Fire, increasing efficiency and reducing running costs. It also allows you to set and maintain a desired temperature, as well as adjust the flame height and fan speed.

## DIRECT VENT TECHNOLOGY

Direct Vent Technology is a fantastic innovation that maintains the total air quality of the home. It draws air from outside the home for combustion rather than warm room air.

This means greater heating efficiency because all the warm air stays in your room. Direct Vent fireplaces can be flued vertically or out through an external wall, making them ideal for multi-storey homes where conventional vertical flues are not practical.

## HEAT DISTRIBUTION

Increase the effectiveness of your fireplace by dispersing warm air from the fireplace to remote locations in the same room or other rooms in your home by using the heat distribution kit.

Optional Heat Distribution Kit

## Enjoy Your Regency — For Life

You'll be happy with your Regency for years to come, our Limited Lifetime Warranty guarantees it. Not only have we invested in quality workmanship, the finest materials and durable heavy-duty construction but we have carefully selected a dealer network that is committed to your satisfaction. All Regency gas fires pass stringent Australian testing standards. We know that you will be as proud of your Regency as we are.

Limited Lifetime Warranty covers the following components: Combustion chamber, heat exchanger, burner tubes and glass (thermal breakage). Refer to owner's manual for details.

**NOTE:** All product specifications are subject to change without notice. Before installing refer to the relevant product manual for full and up to date information. Stainless steel inner panels will naturally change tone over time. Heating capabilities of units are affected by: drafts under doorways or through flooring, large glass areas not covered by heavy drapes, ceiling heights greater than 2.4m or cathedral type ceilings, poor or no insulation and geographical locations.
